New Berlin, WI August 3, 2010 -- Joe Wilde Company, Inc. is excited to announce it's newest product, right in time to protect homeowners from those pesky mosquitos!

The Breezy Living Screen Solutions system is an easy-to-use, affordable and fully retractable screen unit that provides comfortable outdoor living space. Working seamlessly with the operation of your existing garage door, the system uses a vertical and horizontal track system mounted directly inside the existing door, leaving the floor track-free. A "door-within-a-door" system, Breezy Living Screen Solutions is one of the most innovative and unique screen systems for garages and offers an exit door without the need to retract the entire screen.

As the only garage door dealer in Wisconsin to have this unit on display in their showroom, Joe Wilde Company is pleased to offer huge introductory discounts for a limited time only.

Joe Wilde Company, Inc. was established in 1945 and specializes in home exterior products including overhead garage doors, openers, storm doors, service doors, awnings and railings. The company sells to both residential and commercial customers and employs a staff of professional technicians to install and service their entire product line.

For more information on this new product, call 262-782-0500 or visit www.joewilde.com.
